Hi all need some help please... I have a 40 HP twin Evinrude, dark blue motor covers and i cant find a engine nameplate on it. The only numbers I can find are on a raised casting about 1 inch in size which are * 30475 ... and another number on a plug (looks like a welsh plug) on the top of the motor which is G3606376 any help would be good thanks, I was told it might be a late 70's unit Packard, Packard-LePere Packard Motor Car Co, Detroit MI. 1919 and 1920 ultralights ascribed to Packard Co were in fact designed by Etienne Dormoy and built as off-hours experiments by Dormoy (qv) and his friends while employed there.
