

Download Aatb Certification Study Guide

AATB's Prep Course prepares examinees for the CTBS Exam. Registration is organization-wide with no limits on attendance. Register by August 30, 2019. The material in the injections that we use for our umbilical cord blood stem cell therapy comes from full-term live birth deliveries in a hospital setting. These materials are the umbilical cord blood from the discarded placenta, and of course, the umbilical cord itself. The umbilical cord materials do not come from an aborted fetus [...]
