A typewriter is a mechanical or electromechanical machine for writing characters similar to those produced by printer's movable type. Typically, a typewriter has an array of keys, and pressing one causes a different single character to be produced on the paper, by causing a ribbon with dried ink to be struck against the paper by a type element similar to the sorts used in movable type ...

R T Shelley - makers of automotive accessories. 1908 - Private company.. 1908 - The Norton Company was bought by Bob Shelley, who owned R.T. Shelley, an automotive manufacturing business. Most people credit James Norton with the success of the company but actually, without Bob Shelley, there would not have been a Norton motorcycle company at all. R.T. Shelley was already a supplier to Norton ...
