

Download Businessobjects Enterprise Installation Guide

A fragmented, reactive approach to managing access risk isn't just inefficient and costly - it's bad for business. The SAP BusinessObjects Access Control application can enable your business to confidently manage and reduce access risk across the enterprise by helping you prevent unauthorized access and achieve real-time visibility into access risk. Uncover deep business insights in your data – with SAP Analysis for Microsoft Office. This business intelligence (BI) and multi-dimensional data analysis software makes it easy to filter and manipulate data, identify trends and outliers right within Excel, and share findings in live PowerPoint presentations – all without help from IT. The SAP Support Portal is SAP's award winning customer-facing website, which provides access to support tools, services and applications, as well as related documentation and community content. 1 About this document The What's New Guide for SAP BusinessObjects Business Intelligence Suite 4.2 provides an overview of the features and enhancements that have been added to the SAP BusinessObjects Business Intelligence Suite since the
