

# Download Cardiovascular Critical Care

Welcome to WHS Cardiovascular Care, where you'll find health care professionals and staff dedicated to providing you with the highest level of quality care...personal, considerate, sensitive and knowledgeable. The Rationale Behind Bundled Payments. Under a typical bundled payment agreement, a health care provider receives a fixed, lump-sum payment to be divided at its discretion among the facilities and providers involved with a discrete episode of care for a given patient. The Division of Pulmonary and Critical Care Medicine, with 17 full-time faculty members who have a range of clinical interests, is small enough to afford ample opportunities for one-on-one faculty-fellow interactions, while also providing breadth and depth in its training. Due to the aging and increasingly complex nature of our patients, frailty has become a high-priority theme in cardiovascular medicine. Despite the recognition of frailty as a pivotal element in the evaluation of older adults with cardiovascular disease (CVD), there has yet to be a road map to facilitate its adoption in routine clinical practice.
