Mission-driven organization representing over 6,000 of the world's leading colleges, schools, and other educational organizations. Natural Disasters. The College Board offers testing supports to students and educators in areas recovering from natural disasters. If you're planning to take or administer College Board assessments, get the latest updates. The SAT Suite of Assessments is an integrated system that includes the SAT, PSAT/NMSQT and PSAT 10, and PSAT 8/9. These tests measure the same skills and knowledge in ways that make sense for different grade levels, so it's easier for students, parents, and educators to monitor student progress. The main topics of the SAT II Physics test are Mechanics, Electricity and Magnetism, Waves and Optics, Heat and Thermodynamics and Modern Physics. While the degree of difficulty of most of the questions is lower than that of the AP Physics B test, a high SAT Physics score requires a thorough preparation.
