

# Download Drug Delivery And Targeting For Pharmacists And Pharmaceutical Scientists

The pharmaceutical industry comprises of companies that are engaged in research, development, manufacture and distribution drugs for human or veterinary use. The primary function of the research-based pharmaceutical corporations is to create value by discovering and producing effective medicines, vaccines and services that improve patients' well-being, and can be sold in markets at a profit. ABSTRACT: Evolution of an existing drug molecule from a conventional form to a novel delivery system can significantly improve its performance in terms of patient compliance, safety and efficacy. In the form of a Novel Drug Delivery System an existing drug molecule can get a new life. An appropriately designed Novel Drug Delivery System can be a major advance for solving the problems related ... Welcome to The Pharmaceutical Conferences.
