The transmission in a Dodge truck has a few common and known problems for most model years. Dodge trucks are considered dependable by some, and are used extensively for hauling and towing. Because of the abuse they take, they suffer the same kinds of problems over the years. Before taking your truck to a dealership or ... The anti-lock braking system (ABS) in a big truck is very similar to those in most vehicles. A sensor at each wheel monitors wheel speed. During hard braking, the wheel sensor controls the braking action to prevent wheel lockup. If the sensor determines that the wheel has locked up, it automatically pumps the brakes
