

# Download Elementary Graduation Programs

Dual Language Programs HISD is rich with diversity, mirroring Houston. Our specialty schools — dual language, language immersion, International Baccalaureate, and internationally focused high schools — offer students the opportunity for broader language study, multicultural explorations, and the skills to function smoothly in a shrinking global environment. The Federal Grant Programs team in the Resource Allocation Strategy and Planning Office provides allocations, resources, technical assistance, and program monitoring (in collaboration with other DESE offices) for the major federal entitlement grants to ensure high-quality educational opportunities for all of the Commonwealth's students. The goal of the Massachusetts public K-12 education system is to prepare all students for success after high school. Massachusetts public school students are leading the nation in reading and math and are at the top internationally in reading, science, and math according to the national NAEP and international PISA assessments. The Academy and Advanced Academic Programs represent an exciting expansion of curricular options for all students across the city. Recognizing that no educational program should adopt a “one size fits all” philosophy, the division developed these programs to provide additional academic choices for our students.
