Hi, lovely blog. came searching for info on OTG's and came across yours. and found a treasure here. I recently purchased an Murphy richards OTG and dunno y, despite preheating it to 180C and baking for 40mts or so a std spong cake, i end up with the bottom part burnt black. if i reduce the time, the cake remains uncooked. i keep only the grill on in the top slot. and the pan on that. This is a cake recipe I got from my pachi(mom's sister). She has an amazing collection of very easy and very tasty food. One among them is this cake. The cake mix requires hardly 2-3 steps and you will have a cake with amazing taste :).
