Drug Dosage Calculations Practice Exam 1 (20 Items) Practice drug dosage calculations for the NCLEX or any nursing exam with this 20-item questionnaire. In the actual NCLEX, these type of dosage calculations are usually formatted as a fill-in the blank question type. In this quiz, we'll present them as the usual multiple choice format,...As a nursing student you will be required to solve dosage and calculation problems. A patient may be ordered liquid medications and the nurse will need to know how much of the medication to administer.If you find these questions useful, click here to sign up for the dosage calculation question of the day and click here to tell a friend about DosageHelp.com. Choose type of questions: Question: Solumedrol 1.5 mg/kg is ordered for a child weighing 18 lb. Solumedrol is available as 75 mg / 1 mL is available. • The minimum accuracy rate is 78%, and is the same as the minimum pass rate for traditional four- semester nursing students (those who are not LPNs) who pass NUR 135. The test has 28 questions. • Applicants to the "bridge" program must take the dosage calculation competency test or be currently enrolled in NUR 135.
