

# Download One River Explorations And Discoveries In The Amazon Rain Forest

The Nile (Arabic: النيل, written as al-Nīl; pronounced as an-Nīl) is a major north-flowing river in northeastern Africa, and is the longest river in Africa and in the world, though some sources cite the Amazon River as the longest. The Nile, which is about 6,650 km (4,130 mi) long, is an "international" river as its drainage basin covers eleven countries, namely, Tanzania, Uganda ...National Geographic stories take you on a journey that's always enlightening, often surprising, and unfailingly fascinating.
