This authoritative 2003 textbook provides an overview and analysis of current second language acquisition research conducted within the generative linguistic framework. Lydia White argues that second language acquisition is constrained by principles and parameters of Universal Grammar. It argues for a role for Universal Grammar in second language acquisition. Theories as to the role of Universal Grammar and the extent of language transfer are presented and discussed, together with relevant empirical research. Properties of early grammars and grammars during the course of development are examined, as well as the nature of the ...
