

Download Short Vowel Picture Cards

The Short and Long Vowel Picture Cards are designed to help you work with your child to identify the beginning short and long vowel sound in words. Each vowel in the sets includes three picture cards to go along with that beginning vowel sound. Help your child match the picture cards to their beginning vowel sound. In this flashcard pack, you'll find cards for the following short vowel words: Alligator; Egg; Igloo; Octopus; Umbrella; The pack includes a set of cards with the pictures and words, a set with only the pictures, a set with only the words, and a set of each with pictures and vowels only. Kids can practice matching up the long vowel cards with the word cards. All the words used are simple CVC words, so these cards can also be used for beginner readers to practice decoding the sounds and read CVC words. Click on the links below to download the flashcards or posters. [Short Vowels Flashcards](#).
