Computerized Dental Occlusal Analysis for Temporomandibular Disorders: Oral Health Technology Assessment of T-Scan System by Afrashtehfar, Kelvin I., Srivastava, Akanksha, Esfandiari, S (2013) Paperback ... (Clinics in Physical Therapy) (1994-05-01) 1656. di Unknown. Non disponibile. Our therapists work to reduce jaw pain experienced with TMJ disorders. Generally, discomfort from these conditions is occasional and temporary, and often occurs in cycles. An IRG therapist will work with you to reduce jaw pain through targeted methods including heat therapy, massage, and jaw exercises, and get you back to being your best self. This two-day course provides a basic understanding of Temporomandibular Disorder (TMD) and Craniofacial Pain (CFP). Participants will learn anatomy and biomechanics of the normal temporomandibular joint (TMJ), as well as abnormal mechanics or pathophysiological mechanics that will require a comprehensive evaluation and treatment approach.
