

# Download The Theory Of Proportion In Architecture

Much of architecture, from the posts and beams of the Parthenon to the Pontiac Silverdome, can be seen as a struggle against gravity. Without gravity, such basic concepts as "floor", "wall", and "ceiling" lose much of their meaning. Architecture is both the process and the product of planning, designing, and constructing buildings or any other structures. Architectural works, in the material form of buildings, are often perceived as cultural symbols and as works of art. Historical civilizations are often identified with their surviving architectural achievements. *De architectura* (On architecture, published as *Ten Books on Architecture*) is a treatise on architecture written by the Roman architect and military engineer Marcus Vitruvius Pollio and dedicated to his patron, the emperor Caesar Augustus, as a guide for building projects. As the only treatise on architecture to survive from antiquity, it has been regarded since the Renaissance as the first book ...
