The Myers–Briggs Type Indicator (MBTI) is an introspective self-report questionnaire with the purpose of indicating differing psychological preferences in how people perceive the world around them and make decisions.. Though the test superficially resembles some psychological theories it is commonly classified as pseudoscience, especially as pertains to its supposed predictive abilities. Before we get into the subject of validating your conclusions about what is your best fit or true Personality Type, I'd like to acquaint you with the some commonalities among the various Personality Types.. According to Myers Briggs Educator Danielle Poirier, the dominant mental function is the most distinctive marker of a person's personality type (aka mbti type).

Intuition: Its Powers and Perils: Introduction As a research psychologist and communicator of psychological science, I have spent a career pondering the connections between subjective and objective truth, between feeling and fact, between intuition and reality.
